

CHOOSE YOUR OPTION FOR A BRIGHTER SMILE

Ready to Go

Opalescence® Go comes from your dentist in prefilled, disposable trays, allowing you to whiten anytime! The trays are made of a special material that comfortably adapts to your smile. Available in Mint, Melon, or Peach flavors, Opalescence Go is an affordable, more effective alternative to over-the-counter whiteners.

Customized

Opalescence® PF whitening gel offers professional whitening power in the comfort of your own home. Your dentist will take impressions of your teeth and create whitening trays tailored to your smile. Whitening gel comes in a variety of concentrations for different wear times and is available in Mint, Melon, and Regular flavors.

In-Office

Opalescence® Boost, a 40% hydrogen peroxide power whitening gel, offers brighter, whiter teeth after about an hour in the dental chair. Opalescence Boost is chemically activated, so it starts working as soon as it is placed on your teeth and doesn't require a hot, uncomfortable light to work.
